

Faisal Khan

Senior Software Engineer

faisalkhan91@gmail.com | +1 (475)-355-7575 | Kirkland, WA | [linkedin.com/in/faisalkhan91](https://www.linkedin.com/in/faisalkhan91) | github.com/faisalkhan91

Senior Software Engineer with 13+ years of experience architecting systems across fintech, healthcare, and telecom. Currently focused on cloud efficiency, AI-augmented platform engineering, and observability at scale. Core stack: Python, Go, TypeScript, AWS, Azure, Kubernetes, Docker, and Terraform.

EXPERIENCE

Senior Software Engineer, Cloud Efficiency

SoFi | May 2026 - Present

Multi-cloud cost optimization and resource governance at scale.

Senior Software Engineer, Builder Tools

SoFi | Apr 2025 - Apr 2026

Led Datadog cost optimization (six-figure annualized savings), built AI-augmented observability tooling in Go and Python, deployed monitoring infrastructure across Kubernetes and EC2.

Senior Software Engineer, Observability

Galileo Financial Technologies | Apr 2024 - Mar 2025

Owned observability for 200+ microservices. Led unified logging platform evaluation (35+ vendors), recommended and drove Coralogix adoption company-wide.

Senior Software Engineer

Cigna Healthcare | Apr 2022 - Mar 2024

Architecture lead for enterprise monitoring in a HIPAA environment. Cut deployment cycles 40% with CI/CD automation. Built AI applications with Azure AI services.

Software Engineer

Cigna Healthcare | Oct 2019 - Mar 2022

End-to-end platform automation across Angular, Python, Kafka, and mainframe systems. Eliminated 30+ hours/week of manual operations.

Software Engineer

DCI Resources | Feb 2019 - Nov 2019

Containerization and CI/CD modernization on Azure.

Software Engineer Intern

DCI Resources | Sep 2018 - Jan 2019

Drove Git workflow adoption and Azure deployments in the team's early DevOps transformation.

Python Developer

University of New Haven | Jan 2017 - May 2018

Built full-stack features for student-facing applications across the APIs, data layer, and Linux infrastructure.

Research Assistant

University of New Haven | May 2017 - Jul 2017

Analyzed large-scale NOAA weather datasets with Hadoop MapReduce; built ML models to surface storm trends.

Software Engineer

Vodafone | May 2014 - Aug 2016

Cloud infrastructure and automation at enterprise scale (15,000+ servers). VMware, AWS, Oracle RMAN.

System Engineer

Mphasis | Jun 2013 - Jan 2014

Linux and VMware administration. 98% uptime via Splunk monitoring and automated patching.

SKILLS

Python
Go
TypeScript
Angular
Django
Docker
Kubernetes
Terraform
AWS
Azure
Datadog
Splunk
Jenkins
Git
PostgreSQL
OpenShift
Ansible
Kafka
AI/LLM Engineering

CERTIFICATIONS

Azure AI Engineer Associate
Splunk Cloud Administration
AWS Certified Cloud Practitioner
Azure Data Fundamentals
Azure AI Fundamentals
Security, Compliance, and Identity Fundamentals
Azure Fundamentals

EDUCATION

M.S. Computer Science

University of New Haven, 2019

B.Tech. Electronics & Telecom

VIT Pune, India, 2013
